

HUMMINBIRD®

Ethernet Cable Installation Notice

Thank You!

Thank you for choosing Humminbird®, the #1 name in marine electronics. Humminbird has built its reputation by designing and manufacturing top-quality, thoroughly reliable marine equipment. Your Humminbird is designed for trouble-free use in even the harshest marine environment.

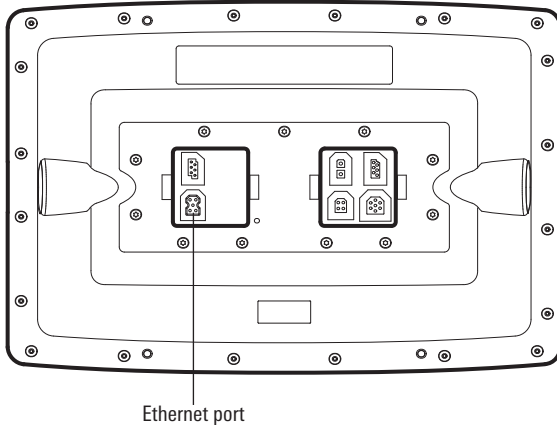

Review the Ethernet Port

If you are installing an accessory that connects to the Ethernet port on your Humminbird control head, review the following information:

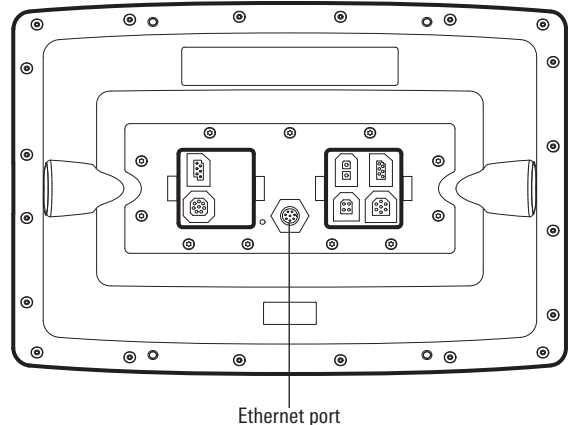

If the port is shaped like an hourglass, you will need additional Ethernet adapter cable(s) for the installation. For cable requirements, visit our Web site at humminbird.com and see the related Ethernet cable accessories for your control head.

If the port is round, the Ethernet cable can be connected directly to the control head without an adapter cable. No further action is required. See your control head installation guide for details.

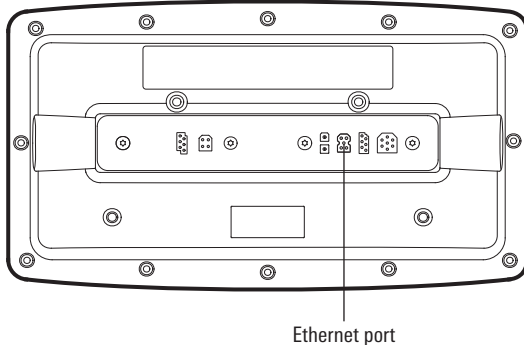

1100 Series™ with Hourglass-shaped Ethernet Port

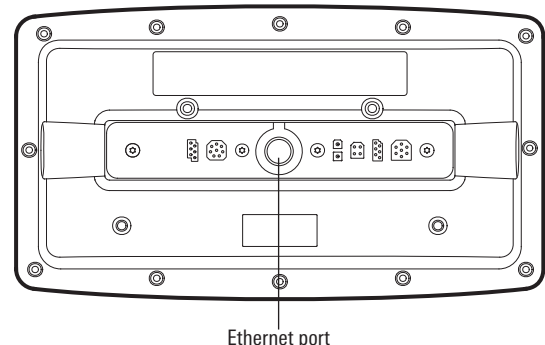

1100 Series with Round Ethernet Port

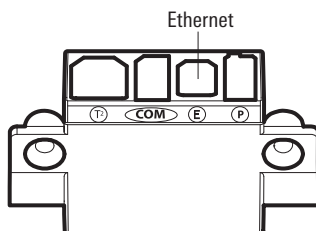

800 Series™/900 Series™ with Hourglass-shaped Ethernet Port

800 Series/900 Series with Round Ethernet Port
